ABOUT ME

Front-End Web Designer creating modern, responsive sites with a focus on usability, performance, and SEO best practices.

SKILLS

Languages HTML5, CSS, Javascript
Frameworks ReactJS, Bootstrap 5, Tailwind, React MUI

EXPERIENCE

Web Designer Oct 2023 – Present
Aabhyasa Technologies Pvt. Ltd. *Varanasi, Uttar Pradesh*

- Developed fully responsive and user-friendly websites with modern design principles and cross-device compatibility.
- Optimized websites for better performance, load speed, and improved user experience to reduce bounce rate.
- Worked on SEO implementation and on-page optimization to improve website ranking and visibility.
- Integrated REST APIs to fetch and manipulate dynamic data across pages.

PROJECTS

Responsive Website Design. Created multiple professional, device-friendly websites using **HTML, CSS and Javascript**. Focused on layout flexibility, cross-browser support, and smooth user interaction.

Live Projects: [🔗 humaanized.com](#), [🔗 webinarwaves.com](#)

In-house Chat Application. Built a real-time business chat application with a rich frontend using **ReactJS, Redux** for global state management, and **React Router** for seamless navigation. Utilized **Material UI** components and implemented dynamic user data handling and API integration.
